HAZING REPORT

Quarles Alone of Virginia Delegation, Voted Against the Measure. Appropriations Enormous.

(By Associated Press.)
WASHINGTON, Feb. 18.—Nearly the whole of to-day's session of the Senate was devoted to consideration of the post-office appropriation bill. So far as committee amendments to the measure are concerned the bill practically was computed although the amendment appropleted, although the amendment appropriating \$50,000 for an extension of the pneumatic tube service remains undis-

Mr. Pettus, of Alabama, delivered a speech in opposition to the Ship Subsidy bill.

Mr. Sewell, of New Jersey, called up the conference report on the Military Academy appropriation bill.
Mr. Daniel inquired if the measure agreed upon by the conferees provided that a cadet convicted of hazing should be deburged from holding a commission be debarred from holding a commission in the army, many or marine corps.

Mr. Sewell replied that such provision had been embodied in the bill as it passed the Senate and it was in the measure as agreed upon in conference.

CRUEL PROVISION.

as agreed upon in conference.

CRUEL PROVISION.

Mr. Daniel protested against such action by Congress, declaring that to enact such an "extreme and cruel provision" would be werse than the offense of hazing itself, "It is an extreme and gross invasion of personal rights," said he "to which I could never give my assent."

He said it would cause the good sense He said it would cause the good sense of the country to revolt, and would be a stain upon the statute books. He weeln not vote for any bill or for any conference report that meted out so cruel and life-long a punishment for an offcnse that might be committed in the thought-lessness of youth. He declared his inten-tion of insisting that the provision should be stricken from the report. The report

went over until to-morrow.

After a brief executive session the Senate at 6:15 P. M. adjourned.

(By Associated Press.) WASHINGTON, Feb. 18.—The bill to authorize the holding of the International Exposition in celebration of the centennial anniversary of the Louisiana Pur-chase at St. Louis in 1993 and appropriat-ing \$5,000,000 therefor, passed the House to-day under suspension of the rules by

a vote of 191 to 41.

The opposition was hopelessly in the minority, and the struggle over the bill was brief. The question of closing the Exposition on Sunday was not mentioned. The sundry civil bill was under consideration late in the day and Mr. Cannon, chairman of the Appropriation Commit tee, took occasion to make a detailed statement of the appropriations for the present Congress. He figured that the appropriations would total \$694,118,595, exclusive of the saking fund requirement of \$53,000,000, against \$657,150,862 for the current year.

He fired some hot shot at the minority for prating of economy and not helping to uphold the hands of himself and others when they were trying to keep appropriations down.
TAUNTED CANNON.

Mr. Sims, of Tennessee, taunted Mr. Cannon with fighting honest claims of a few hundred dollars and then remaining quiescent when such a bill as the pending one was before the House.

Mr. Cannon replied that he had consistently opposd such legislation. He had opposed this expenditure in its first stages, but on its presnt footing the Government was obligated to perform its part of the contract, St. Louis' part in which having been performed.

Mr. Quarles alone of the Virginia delegation is recorded as voting against the one was before the House.

gation is recorded as voting against the bill.
Mr. Littlefield, of Maine, who was then recognized, moved to pass under suspension of the rules the bill to define the meaning of the word "conspiracy," and to regulate the use of restraining orders as proposed to be amended by the committee.

Mr. Littlefield explained that it was

(Special Dispatch to The Times,) RALEIGH, N. C., Feb. 18.-The House of Representatives voted at 2 o'clock this afternoon by 29 majority to prosecute Chief Justice David M. Furches and Associate Justice R. M. Douglas, of the North Carolina Supreme Court, at the bar of the State Senate to the end: "That they be im-

peached on the charge of high crime and misdemeanor in office."
THE CHARGE. The charge against them is that on their order and that of Chief Justice Faircloth, now deceased, as a majority of the court, a mandamus was issued by the court on the payment of money in violation of an express provision of the Constitution as sala-ry for an officer whom the General Assembly had by enactment declared should not be paid for or perform the duties of the office of Shell Fish Commissioner.

The discussion has been in progress for the past four days and has been one of the most interesting ever held by a North Carolina General Assembly. REVIEW OF THE CASE. The resolution as adopted reviews the history of Theophilus White (Kep.) Shell Fish Commissioner case and the legisla-

tion by the 1809 Democratic Assembly to put him out of office and put the department in the hands of Democrats; also the suit which followed, in which the Supreme Court declared parts of the act of 1899 un constitutional, ordered that White was still Commissioner and issued a mandamus on the State treasurer for the amount of his salary. In this connection the resolu-tion says, too, that the action of the said judges of the Supreme Court is hereby decared to be in violation of the spirit and letter of the Constitution and in defiance of the plain statutory law (1) this State, and a usurpation of power subversive of the rights and powers of the Legislative Department of the Government. EASILY DEFEATED.

The House will at an early date appoint seven of the members to prosecute the impeachment before the Senate. It is not known as yet when the trial will begin, probably not for ten days or more. It is not generally believed that the Senate will impeach, as there is a very strong senti-ment among Democrats outside of the House against it, and it will require only seven Democratic votes in the Senute in
